Research interests: population · war · kinship · generational processes · bereavement · inequality

Diego Alburez-Gutierrez is an Independent Research Group Leader at the Max Planck Institute for Demographic Research, where he leads the *Kinship Inequalities Research Group*. His research has contributed to advancing kinship demography as a field, combining mathematical modelling, demographic microsimulation, population registers, surveys, and genealogical data to study how demographic change transforms extended family networks and the availability of kin. He has published in leading journals including *Proceedings of the National Academy of Sciences*, *Science Advances*, *Demography*, and *Population and Development Review*, and has developed open-source computational tools for kinship research, including the R packages `DemoKin` and `rsocsim`. His research has examined the future of human kinship worldwide, the demographic dynamics of bereavement and kin loss, the effects of armed conflict on family networks, and methodological challenges in studying kinship. He is Chair of the International Union for the Scientific Study of Population (IUSSP) *Panel on Kinship Structures, Dynamics, and Inequalities* and Associate Editor of *Demographic Research*, and has organised international conferences and workshops to advance the field. His work has been recognised through several major awards, including the Otto Hahn Medal of the Max Planck Society (2019), the BSPS Early Career Award (2022), the European Demographer Award (2023), and the IUSSP Early Career Award for Europe (2024).

EDUCATION

The London School of Economics and Political Science, UK
PhD, Demography and Population Studies — 2014 - 2018
MSc, Social Research Methods (Distinction) — 2013 - 2014

Universidad del Valle de Guatemala, Guatemala
BA, Anthropology and Sociology (First class/Summa Cum Laude) — 2008 - 2012

EMPLOYMENT

Max Planck Institute for Demographic Research (MPIDR), Germany
Independent Research Group Leader, Kinship Inequalities Research Group — May 2022 - present
Post-Doctoral Researcher, Lab of Digital and Computational Demography — Jan 2019 - Apr 2022

Humboldt University of Berlin, Germany
Affiliated Senior Researcher, Department of Social Sciences — Feb 2026 - present

United Nations High Commissioner for Refugees (UNHCR), Denmark
Statistics Team Intern, Field Information and Coordination Support Section (FICSS) — Feb - Jun 2018

The London School of Economics and Political Science, UK
Research Assistant — 2013 - 2017
Project-based, at the Departments of Sociology, Social Policy, Law, and Methodology

Universidad Rafael Landívar, Guatemala
Analyst, Public Opinion Program — Jul - Nov 2013
Designing and implementing qualitative research for the Media Monitoring Project

RESEARCH GRANTS

- Kinship Inequalities Independent Research Group (2022-2027), grant awarded by the Max Planck Society (€1.9 million)
- LSE PhD Studentship (2014-2018) awarded by the London School of Economics (ca. £145,000)

AWARDS

- IUSSP Early Career Award (2024), given by the International Union for the Scientific Study of Population for outstanding contributions to the discipline in the European Region.
- European Demographer Award (2023), given by Population Europe to one promising and upcoming researcher who has obtained their Ph.D. within the last five years (€1,000)
- BSPS Early Career Award (2022), given by the British Society for Population Studies to one promising early career demographer
- Günther Beyer Award (2022), given by the European Association for Population Studies to the best paper by an early career scholar at a European Population Conference (€400, awarded jointly with Ugofilippo Basellini)
- Otto Hahn Medal (2019) given by the Max Planck Society for outstanding achievement from the initial creative period of young scientists (€7,000)
